Agenda

- Update Ron on our agent's progress
- Discuss ways to improve our agent

Meeting Summary

- Our agent is not working well currently we decided to continue working in Godot but may try using an agent in Python if the agent continues to be unsuccessful
- If we use a Python agent it will still be trained on the game environment in Godot

Next Steps

- Continue modifying the current agent to improve it
- If we continue to have problems with the agent in Godot try an agent in Python
